The range hood, custom made and painted to match the cabinetry, is the star of the show with its gold strap detail.

- Senior designer: Melissa Cooley
- Project developer: Hope Hassell
- Photographer: Stacy Zarin Goldberg
- Project manager: Jason Burdo

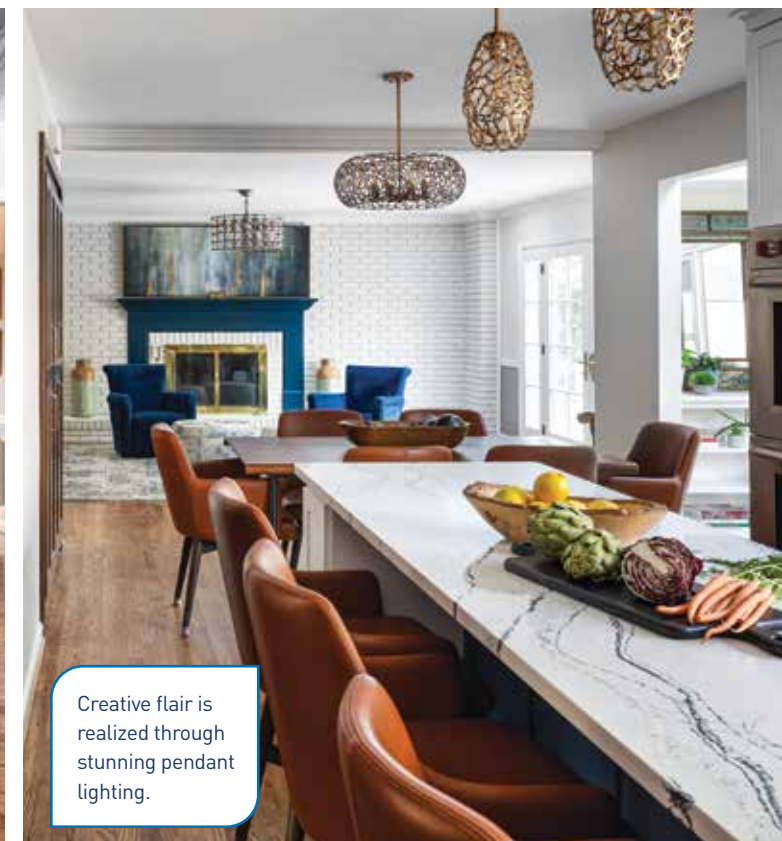

A quartz backsplash emulates the look of mountains and matches the island top.

COME ONE, COME ALL!

A well-traveled, multicultural family of four in Great Falls, Virginia, eagerly embraced colors and creative ideas during their kitchen remodel. "The client came to our team with an eclectic vision, very similar to her favorite circus show, 'Cirque du Soleil,'" says Melissa Cooley, senior designer at Case Architects & Remodelers. "They were deeply inspired by the array of colors and excitement that exuded from the show and wanted to incorporate some of those elements within their kitchen. We translated that to mean something exciting, interesting and fun."

A furniture-like storage unit, separate from the finishes in the kitchen, ties together the breakfast area and the family room.

Creative flair is realized through stunning pendant lighting.
